# UNITED STATES STEEL CORPORATION PROVIDES THIRTY-NINTH QUARTER 2020 EARNINGS

United States Steel Corporation (NYSE: X) today provided third quarter 2020 unaudited earnings information. Third quarter 2020 adjusted EBITDA is expected to be approximately \$200 million. The Company expects third quarter 2020 adjusted diluted loss per share to be approximately \$(1.45).

"Investors should expect continued volatility in the steel market and the U.S. economy," said Kevin Lewis, Vice President and Chief Financial Officer. "We will continue to focus on cost reduction and operational efficiency to improve our performance."

United States Steel Corporation is a leading provider of steel products and services. The Company's products are used in a wide range of industries, including automotive, construction, and manufacturing. The Company is committed to providing high-quality products and services to its customers.

The Company's revenue is primarily derived from the sale of steel products. The Company's operating expenses include raw materials, labor, and overhead costs. The Company's profitability is primarily determined by the price of steel and the volume of sales.

The Company's financial performance is closely tied to the steel market. The Company's revenue and profitability are expected to be affected by changes in the price of steel and the volume of sales. The Company is committed to providing high-quality products and services to its customers.

...be negative in the first quarter, we expect them to be significantly better than second quarter results. Our gross margin is expected to be lower than the second quarter due to seasonal nature of workload. Our operating expenses are expected to be higher than the second quarter as book and lead times have improved, and we are increasingly investing in our R&D efforts. The credit

Revenue and operating expenses by quarter (in millions of dollars)

Quarter	Revenue (in millions of dollars)	Operating Expenses (in millions of dollars)
Q1 2015	1,200	1,100
Q2 2015	1,300	1,250
Q3 2015	1,400	1,350
Q4 2015	1,500	1,450
