NON-GAAP FINANCIAL MEASURES  
RECONCILIATION OF ADJUSTED EBITDA

We present adjusted net (loss) earnings, adjusted net (loss) earnings per diluted share, (loss) earnings before interest, income taxes, depreciation and amortization (EBITDA) and adjusted EBITDA, which are non-GAAP measures, as additional measurements to enhance the understanding of our operating performance. We believe that EBITDA, considered along with net (loss) earnings, is a relevant indicator of trends relating to our operating performance and provides management and investors with additional information for comparison of our operating results to the operating results of other companies.

Adjusted net earnings (loss) and adjusted net earnings (loss) per diluted share are non-GAAP measures that exclude the effects of items that include: the asset impairment charge, restructuring and other charges, the Fairless property sale, the Big River Steel options and forward adjustments, the December 24, 2018 Clairton coke making facility fire, the tax valuation allowance, loss on extinguishment of debt and other related costs, the USW labor agreement signing bonus and related costs, Granite City Works restart and related costs and gains on disposals, investments, business combinations and other items. See the reconciliation of GAAP earnings to non-GAAP earnings in the Management's Discussion and Analysis section of the Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission on March 1, 2019.
